## Experience

JUNE 2021 - PRESENT

### Manzeera Solutions, Bracknell, UK – Business Intelligence (BI) Consultant

- Gain experience as a BI professional with extensive working knowledge of a BI Tool known as Domo
- Skilled in communication and collaboration with both technical and non-technical teams
- Proficient in three core verticals: Data Engineering, Data Analysis, and BI Consulting
- Data Engineering Tasks : Managed end-to-end client requirements using Python scripting ( API extraction from platforms like SAP, Monday.com etc using REST API and OData Queries), and SQL to bring data from various sources into the BI platform and prepare them for analysis & visualization.
- Data Analysis Tasks : Conducted preliminary analysis, data cleaning, and transformation to prepare data for visualization and dashboard creation using Data Analysis skills, DOMO-ETL, and MySQL/Redshift SQL flows
- Confidently handled client communication, provided new perspectives, and offered BI services, visualization, reporting dashboard walkthroughs, unit testing, and documentation
- Excel in project management, scrum calls, and lead projects in the absence of senior team members

JULY 2020 - DECEMBER 2020

### The SmartBridge, Hyderabad, India – Machine Learning Intern

- Demonstrated expertise in ML and AI by creating multiple proof of concepts (PoC) for an ed tech company during a 6-month internship
- Developed technical documentation and guided materials to assist students with their training in ML and AI
- Contributed to the company's financial success by creating projects that generated recurring income, leveraging the skills in AI gained through applied learning
